Permanent GNSS/GPS Stations - Data

552 Beth Bartel January 5, 2010 GNSS Permanent Stations 4047

doot doot

permanent station data can be stored in the unavco archive--this is required for nsf-funded station installations

(only ones supported by unavco with unavco equip?)

data rates
data transfer

where to find download software and methods (individual for the receivers)

link to data policy

data rates (data collection)

stations can be downloaded manually, resulting in large and infrequent batches of data, telemetered once a day, or available continuously in real-time.

link to software, including remote computer, downloading, pre-processing
