## GPS antenna monuments and mounts supported by UNAVCO: Options and Effectiveness

Normandeau, J., Meertens, C., Bartel, B.  
UNAVCO, 6350 Nautilus Dr., Boulder, Colorado 80303

### Abstract

Many different monumentation types and antenna mounts have been used in UNAVCO-supported projects for campaign, semi-permanent and long-term continuous GPS sites. We summarize nine monuments and mounts currently in popular use in UNAVCO-supported projects as options to the greater scientific community. The designs range in height from 0 to 3 meters; substrates into which they are installed include soil, bedrock, and concrete; and costs range from approximately \$30 to \$15000. In many places outside the US, logistical, economical, and material restraints make installation of deep- and shallow-drilled braced monuments at best difficult and at worst impossible. Simpler single-mast or concrete monuments offer less expensive, more portable installation options.

**GPS antenna monuments and mounts supported by UNAVCO: Options and Effectiveness**

Many different monumentation types and antenna mounts have been used in UNAVCO-supported projects for campaign, semi-permanent and long-term continuous GPS sites. We summarize nine monuments and mounts currently in popular use in UNAVCO-supported projects as options to the greater scientific community. The designs range in height from 0 to 3 meters; substrates into which they are installed include soil, bedrock, and concrete; and costs range from approximately \$30 to \$15000. In many places outside the US, logistical, economical, and material restraints make installation of deep- and shallow-drilled braced monuments at best difficult and at worst impossible. Simpler single-mast or concrete monuments offer less expensive, more portable installation options.

**Monuments**

- Deep drilled braced**
- Concrete pillar**
- Polar mast**
- Shallow drilled braced**
- Shallow foundation mast**
- 5/8" all-thread**

**Antenna Mounts**

- SIIGN mount**
- SECO 2072-series stainless steel adapter**
- Cup and brass adapter**

**Custom monumentation and mounts**

**Things to consider**

**Requesting support from UNAVCO**
