

UNAVCO TLS Target

739 Henry Berglund January 29, 2014 [RIEGL](#) 787

Specifics

- Designed by UNAVCO for use with TLS systems.
 - Reflective disk diameter = 16.5cm
 - Overall dimensions = 22cm in diameter by 3.8cm thick
 - Weight = 0.771kg
 - Adjustable reflector with resistive pivots to maintain set position
 - Black anodized for protection and professional finish
 - 5/8-11 thread top and bottom for tripod mount and GPS antenna attachment
 - Red reflector material, 3M diamond grade, supplied at no charge for consortium members.
- Request stickers by contacting repairs@unavco.org. Red reflectors are suited for Riegl TLS systems. Check your system requirements if other than Riegl.
