UNAVCO TLS Target

Specifics

- Designed by UNAVCO for use with TLS systems.
- Reflective disk diameter = 16.5cm
- Overall dimensions = 22cm in diameter by 3.8cm thick
- Weight = 0.771kg
- Adjustable reflector with resistive pivots to maintain set position
- Black anodized for protection and professional finish
- 5/8-11 thread top and bottom for tripod mount and GPS antenna attachment
- Red reflector material, 3M diamond grade, supplied at no charge for consortium members. Request stickers by contacting repairs@unavco.org. Red reflectors are suited for Riegl TLS systems. Check your system requirements if other than Riegl.
