Trimble Warranty Code Requests

784 Jim Normandeau April 17, 2017 Trimble 4289

Contact Trimble: warranty_options@trimble.com to request warranty codes for your NetR9 receivers.

Also cc Tom Mackie Tom_Mackie@Trimble.com when sending the request.

Send them the receiver model number and serial number.

NetRS receivers no longer require a warranty code to install the latest firmware v1.3-2.
