

TLS Battery Box Set Up for Riegl Scanners

797 Greg Koltz March 6, 2014 [RIEGL](#) 1806

The TLS battery box is comprised of a small Pelican case containing 2 PowerSonic PS-12180NB batteries. They are 12.0 V, 18.0 Ah batteries connected in series for a total of 24.0 V as shown in Figure 1 below.

Figure 1

Each battery box comes with a connection kit which includes:

- 4 leads (Two +, Two -)
- 4 nut/bolt pairs to connect leads to battery terminals
- 1 connection to complete circuit and connect to scanner power cable
- 1 10 Amp fuse holder

Figure 2 below is an image illustrating the proper configuration for the battery box and connections.

Figure 2

Each battery weighs 12.0 lbs (5.44 kg) and the total weight of each battery box is 30.5 lbs (13.83 kg).
