Real_time_QC

805 Jim Normandeau September 4, 2015 Software 8716

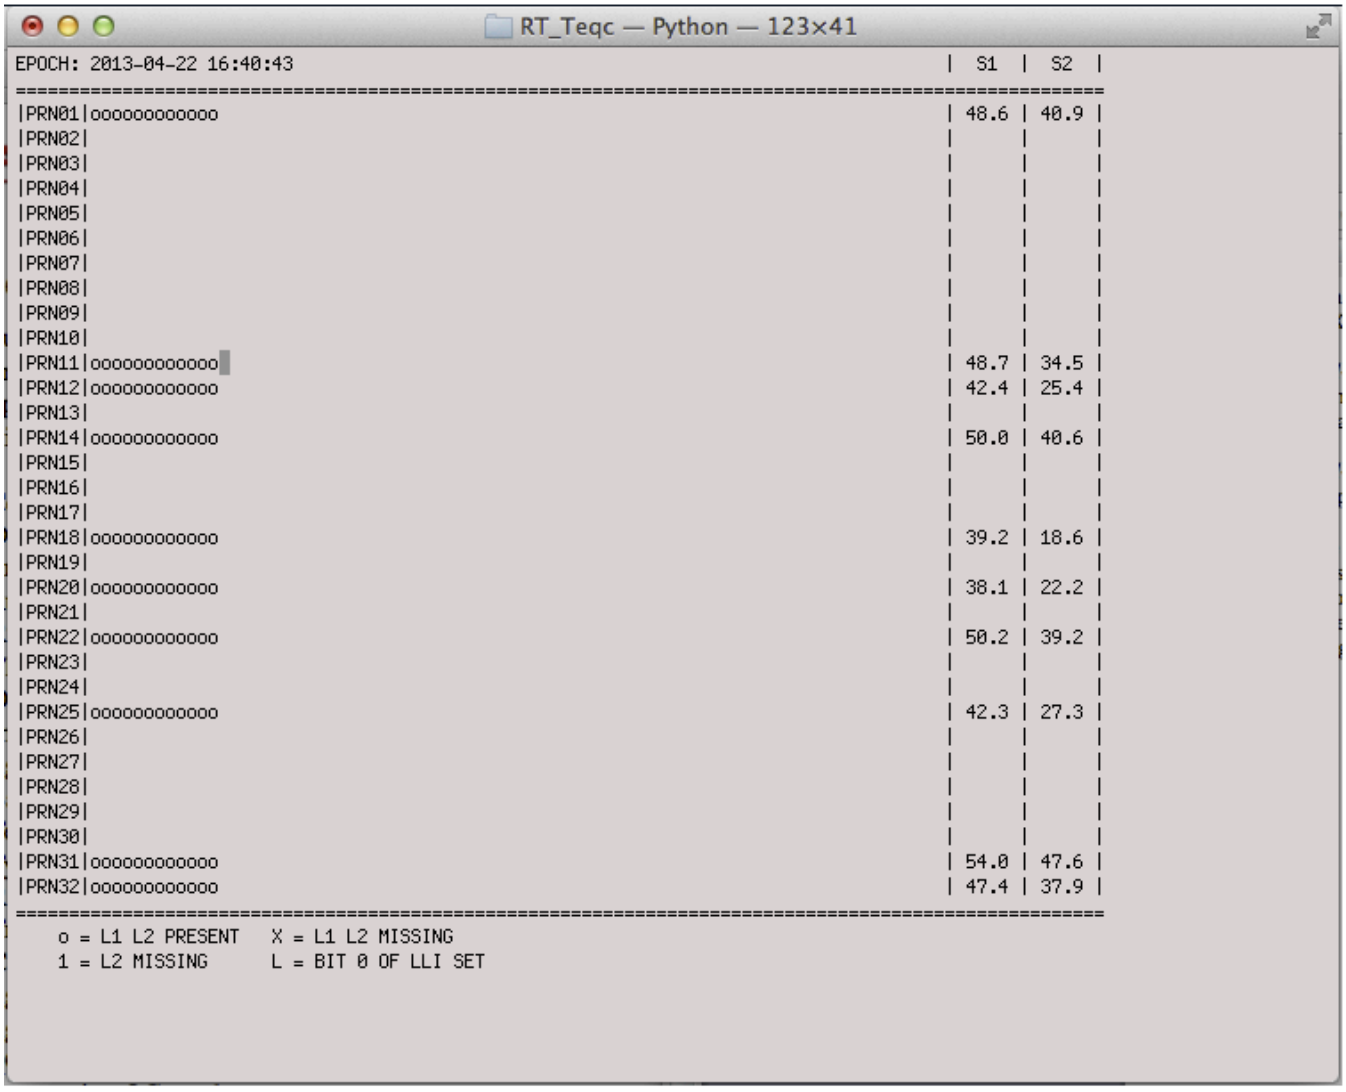

A useful tool for monitoring GNSS data quality in real time.

If you are interested you may download the program and the user manual from the following FTP locations:

ftp://brick.unavco.org/pub/users/berglund/share/Real_Time_QC_UserGuide.pdf
ftp://brick.unavco.org/pub/users/berglund/share/rtqc_ascii.py

Real Time QC does not work natively on Windows. Real Time QC depends on piping a stream into teqc. The Windows version of teqc does not support pipes.

This program has only been tested on Mac and Linux systems with Python 2.7.
