

ArcGIS - Beginners' Resources

828 Marianne Okal September 9, 2015 [Technical How-To](#) 510

ArcGIS Help Library

The ArcGIS website has an extensive amount of training resources available. Below are listed a few pages that provide a beginner and intermediate level how-to's for lidar data processing and viewing.

- [Using lidar in ArcGIS](#)
- [Creating raster DEMs and DSMs from large lidar point clouds](#)
- [An overview of analysis and LAS datasets](#)
- [Statistical analysis for LAS datasets](#)

User Forum

A [user forum](#) is available for public information.

Videos

The following videos provide tutorials for using ArcGIS.

- For those inexperienced in ArcGIS, a good place to start is with [Getting Started with ArcGIS](#).
- [Overview of Lidar Support in ArcGIS 10.1](#)
- [Lidar - Working with LAS datasets](#) - over an hour of useful how-to's.
